

FIG. 1 is a block diagram of a system 100 for protecting web pages. The system 100 includes a server computer 102, a client computer 106, and a remote computer 130. The server computer 102 includes a web server 116, a web browser 126, and a substitute data processor 126. The client computer 106 includes a web browser 126 and a substitute data processor 126. The remote computer 130 includes a protection manager 128. The system 100 is connected to the Internet 100. The server computer 102 receives HTTP requests for web pages from the client computer 106. The server computer 102 processes the requests and returns the web pages to the client computer 106. The remote computer 130 manages the protection of the web pages.

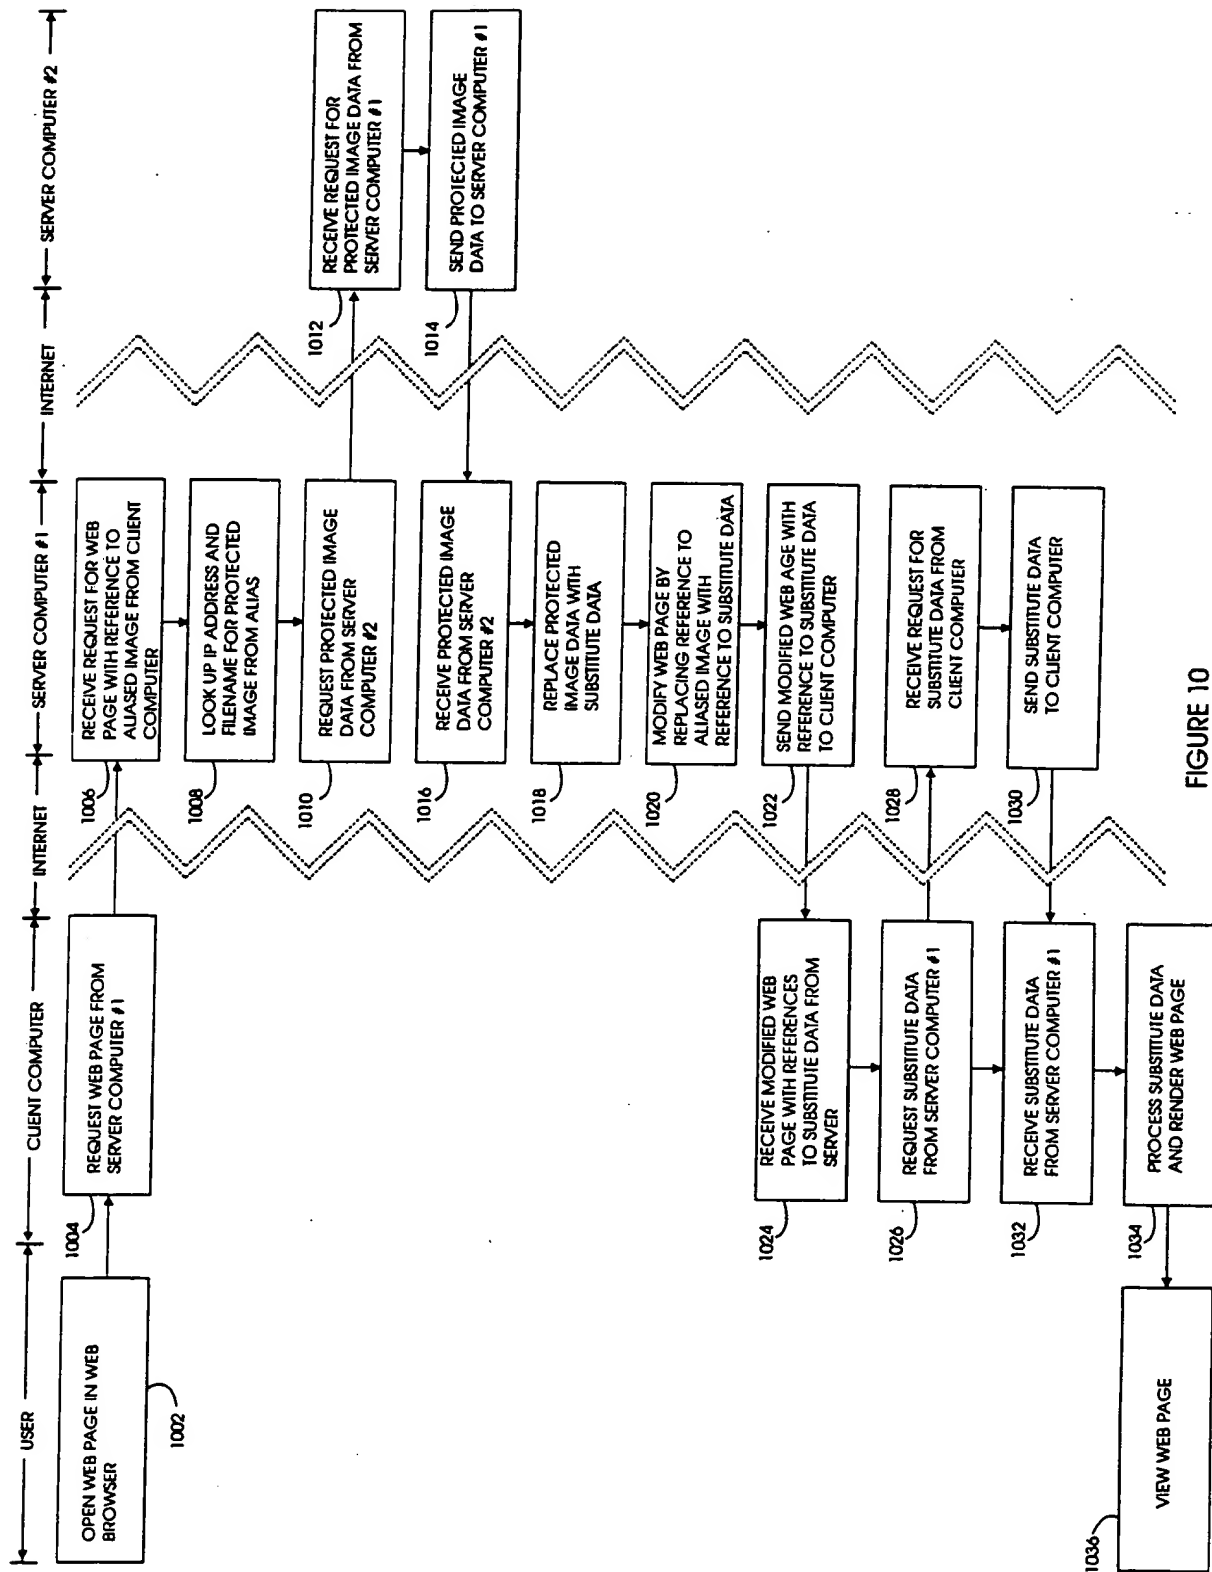

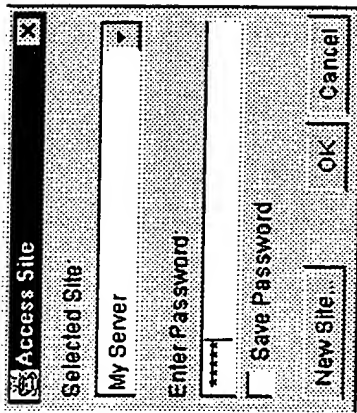

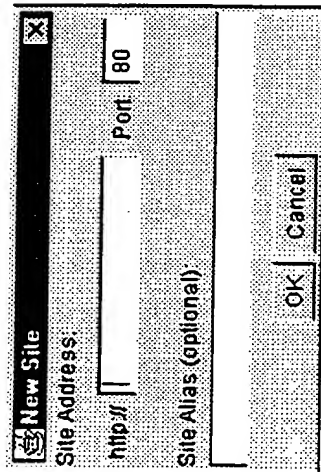

FIGURE 10

The 'Access Site' dialog box contains a 'Selected Site' dropdown menu with 'My Server' selected. Below it is an 'Enter Password' field with masked characters. A 'Save Password' checkbox is present and unchecked. At the bottom are 'New Site...', 'OK', and 'Cancel' buttons.

FIGURE 12

The 'New Site' dialog box features a 'Site Address' field containing 'http://', a 'Port' field with '80', and a 'Site Alias (optional)' field. 'OK' and 'Cancel' buttons are at the bottom right.

FIGURE 11

The screenshot displays the PixSafe Manager application window. The title bar reads "PixSafe Manager". The interface is divided into several sections:

- Top Bar:** Contains icons for File, Edit, View, and Help, along with a status bar showing "Current Site: My Server".
- Left Panel (File Tree):** Shows a hierarchical view of the file system. The root is "Root", which contains folders like "images", "iisamples", "cscabs", "cgi-bin", and "vll_bt". The "vll_bt" folder is expanded, showing sub-folders like "vll_pv", "vll_log", "vll_cnf", "vll_bin", and "iisResourceKit". The "Sample" folder is also visible.
- Right Panel (File List):** Displays a list of files and folders. The columns are "Status", "Image Name", and "Displayed in". The list includes files like "anflowers.gif", "anwheel.gif", "highlight.gif", "hnews.gif", "ma1.gif", "mainfeat.gif", "mcut1.gif", "menubot.gif", "menutop2.gif", "mh3.gif", "mlogo.gif", "mn1.gif", "mp1.gif", "mp1ugin.gif", "mts1.gif", "onapixel.gif", and "wscase.gif". Each file is associated with a specific path in the "Displayed in" column, such as "/Sample/csafe/index.html".
